

PRIVATE MEDICINE +

Private Medicine + services include, but are not limited to:

- 24/7 access to personalized care by a Board-Certified, experienced Family Practice physician (Dr. Rick Baxley) with immediate response to medical problems, questions, and concerns by email, personal phone or telemedicine technology.
- Assistance in the logistics of medical care (appointments, referrals, medication refills, etc.) by a dedicated, concierge-oriented assistant (Patty Sikaffy).
- Extensive personal medical history review.
- Comprehensive Executive Health Assessment and Physical Exam annually with emphasis on early detection of new medical problems.
- Hard copy and digital detailed report of current health status and recommendations for prevention of disease and improving wellness by promoting good nutrition, fitness, and stress management.
- Ongoing medication review and management.
- Extended physicians/patient consultation time.
- Home visits when necessary.
- Single point of contact for your personal medical information.
- Intermediary between patient and specialists (Including personal attendance at specialist's appointments when appropriate).
- Doctor-to-doctor telephone, video, and email consultations with specialists when needed.
- Complementary access to the Healthnetwork Foundation, University of Miami VIP referral service, and non-emergency access to Pinnacle Care, a nationwide concierge specialist referral service.

Note: Since the Executive Health Assessment and Physical Exam is a non-covered service for Medicare and most private insurances, the cost of that evaluation and short-term follow-up are included in the subscription. However, per federal healthcare law, other problem-based health care services such as office or home visits for illness or established problem management must be filled to Medicare or your private insurance.
