

April 15th 2022

Good day to all,

Summer fun is just around the corner and before we venture off into our respective travel plans: I wanted to share some information you may find useful.

MCOR Updates:

- The CDC has expanded eligibility for an additional booster dose. People over the age of 50 can now get an additional booster 4 months after their prior dose to increase their protection further. This is especially important for those 65 and older and those 50 and older with underlying medical conditions that increase their risk for severe disease from COVID-19 as they are the most likely to benefit from receiving an additional booster dose at this time.
- If you are interested in securing your additional booster dose, please call The Medical Center to schedule an appointment.
- The Medical Center has secure COVID Anti-viral Medication, Plaxlovid. MCOR Providers will determine eligibility.
- Complimenting ORCA's existing pharmacy delivery service, MCOR is excited to work with the Pharmacy at Ocean Reef. Located on first floor of the Plaza Building; the pharmacy serves as a fantastic resource to meet the pharmaceutical needs of our community. For those traveling to Africa; the Pharmacy at Ocean Reef can secure the Yellow Fever vaccine. Please call the Pharmacy for additional information.
- With the support of ORCA, MCOR and Monroe County Sherriff, a Drug Box drop off station has been set up at Public Safety. This dox box is used for the responsible disposal of medication controlled or otherwise with the exception of liquid substances.
- *Just a friendly reminder that the Lab hours are transitioning into our summer hours of operation. Therefore Monday, 5/2/22 we will open at 8:00am.*
